Dear Mr. Livingstone,

I enjoyed our phone conversation and I appreciate your sending the material. I'll try to answer your questions as well as I can.

On the Joe Dolan radio show, I meant to indicate that there was no controversy concerning the wounds between the doctors in attendance. I was with them either separately or in groups on many occasions over a long period of time.

Concerning Exhibit F-48, there is no way the wound described to me by Dr Perry and others could be the wound shown in this picture. The massive destructive wound could not remotely be pulled together well enough to give a normal contour to the head that is present in this picture.

Best wishes,

David Stewart, M.D.
